PROFESSIONAL SUMMARY

Passionate about leveraging technical skills and academic knowledge to solve real-world challenges in computer science and technology. Dedicated to bridging the gap between academic theory and industry demands. Enthusiastic about exploring diverse opportunities and committed to continuous learning and growth in the dynamic field of computer science.

EXPERIENCE

Bharat Intern -Intern

I am extensively trained in front-end web development, achieving proficiency in HTML, CSS, Basic JavaScript for webpage development.

YBI Foundation - Intern

Completed an internship at YBI Foundation in the domain of Artificial Intelligence and Machine Learning (AIML), gaining a comprehensive understanding of the technologies underpinning machine learning. Acquired hands-on experience in machine learning model training and dataset manipulation.

PROJECTS

Weather API

Led pioneering project as Team Lead, creating dynamic front-end for a weather API, showcasing leadership, technical proficiency, and collaborative teamwork. Leveraged cutting-edge web technologies and design principles for a user-friendly interface with weather data. Embraced cooperative approach, achieving balance between visual appeal and functional robustness with HTML, CSS, and JavaScript.

Bus Ticket Booking System

Python full-stack application built with Django, HTML, CSS frontend, PG Admin for database, and PythonAnywhere for deployment.

Personal Portfolio And Netflix Homepage

During my web development internship, I created a Personal Portfolio website using HTML, CSS, and JavaScript, enriching my understanding of web development. The website includes essential information about me and integrates clickable icons for intuitive navigation. It also features database integration with an Excel sheet for functionality enhancement.
